Trump's executive order related to free speech on campuses risks dangerous precedent

President Donald Trump signs a lot of executive orders, many of which go unreported or unremarked upon in the shadow of his very public and very distracting Twitter episodes. But, students, faculty, staff and alumni of higher education institutions should be paying closer attention to one of Trump's most recent executive orders, signed March 21, titled "Improving Free Inquiry, Transparency, and Accountability at Colleges and Universities."
