COMMENTARY:
Understanding the connection between physical and mental health

One can explain the difference between a person's mind and body. However, when considering the relationship between mental health and physical health, that positive and adverse reactions often occur in connection of one to the other. [Read Commentary](#)

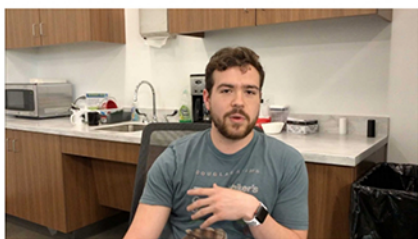

In an age in which society is driven by media of all shapes and sizes, to be literate is not enough anymore for those participating daily in society. As all media around us continues to evolve and impact one's life, it is becoming more imperative that society be a media literate one. [Read Editorial](#)

COMMENTARY: Ecuadorian government revokes Julian Assange's asylum for being a nightmare houseguest

The WikiLeaks founder had taken asylum in the Ecuadorian Embassy in London since 2012, and in April 2019, after seven years as the embassy's guest, he finally wore out his welcome. When one looks into his behavior, it is easy to see why. [Read Commentary](#)
